   A proverb goes Hard work is the key to success. If a man works hard he must succeed. On the other hand if someone idles away his time his downfall is a must there is no shortcut to success.

Sometimes we spend so much energy trying to find a shortcut to success only to realize that success requires hard work this is the lesson of the history but we don't want to take lesson from history. If we want to succeed we must work hard. Success in life never comes automatically it is to be earned through vigorous hard work.
